

FOOD NORTHWEST ENERGY COMMITTEE

FY 2025 – 2026 Priorities

Policy Advocacy – Coordinate Food Northwest and Campbell Technical Services efforts and comment submissions to state and federal energy departments, regional PUCs, Oregon DEQ, Washington Ecology, legislators, and other organizations.

Infrastructure Readiness – Engage with BPA, PGE, Avista, Idaho Power, and other energy providers on industrial rate stability and reliability guarantees.

Technology and Innovation – Educate members on electrification readiness, energy-efficient process technologies, and funding and assistance opportunities.

Communications -- Expand Food Northwest outreach on energy costs, carbon implications, and competitiveness, including focused meetings in the three Northwest states.
