Message from Oregon Department of Emergency Management:

Please see the following important information and update from the Cybersecurity and Infrastructure Security Agency (CISA):

While there is no specific threat to the US, past history of Russian actions suggests that there is a heightened threat of cyber intrusions and mis-/dis-/malinformation due to the tensions in Ukraine. CISA is trying to be proactive rather than reactive, and is directing stakeholders to a new "single website" for this incident:

[Shields Up | CISA](#)

Due to increasing geopolitical tensions, CISA has issued a "Shields Up" message to every U.S. organization. The advisory provides steps organizations can take immediately to ensure that:

- The likelihood of a damaging cyber intrusion is reduced
- A potential intrusion is quickly detected
- An organization is prepared to respond if an intrusion does occur, and;
- An organization has maximized their resilience in the face of a destructive cyber incident

The entire advisory can be viewed here: Shields Up | CISA
